

WHAT IS EXHIBIO™ ?

The Exhibio™ Digital Signage System is a revolutionary hardware/software device used to create, integrate and schedule dynamic content shown on displays, such as plasma and LCD screens.

Exhibio™ is the industry's easiest digital signage system to install and operate. Its affordable price makes sophisticated digital signage a reality for any organization.

Its patent-pending technology makes Exhibio™ the industry's first browser-based system.

Exhibio™ is a comprehensive solution containing both a content management system and a display control system in a single unit. The Exhibio™ Manager features an intuitive "WYSIWYG" visual interface that enables users with any skill level to produce a custom mix of multimedia. The Display Control System drives content to any display, filling it from edge-to-edge, creating an attractive digital signage presentation.

Compact

Rackmount

MULTIMEDIA CAPABILITIES

Easily incorporate all of the following into an Exhibio™ scene for display:

ANIMATION

Movies, scrolling content, animated gifs, flash, and Live TV, make your message impossible to ignore.

AUDIO

Incorporate audio with Live TV or video files, and play MP3 files.

IMAGES

Display large or small BMP, GIF, JPG, or PNG Files.

FLASH

Repurpose your flash files into your Digital Signage. Play any flash file, flash video, or .swf file

LIVE HDTV/VIDEO

Live HDTV or DVDs, and even schedule channel changes.

WEB PAGES

Bring in live websites to display real-time web related information.

TEXT

Sharp, crystal clear text, placed anywhere on the Digital Sign.

RSS FEEDS

Read updated RSS News from all over the world. Keep your viewers up to date.

DATA-DRIVEN CONTENT

Pull live data from SQL servers, phone switches, or any other time sensitive data.

POWERPOINT

Repurpose your existing Powerpoint files.

MOVIES

Play any DVDs, MPEGs or AVI Movies, and really catch eyes.

SCROLLING CONTENT

Scroll any content, up, down, right to left, or left to right. Make your messages mobile.

APPLICATIONS

Versatile and easy to use, Exhibio™ is specifically designed to meet the needs of businesses, educational institutions, government agencies and other organizations. Use the power of digital signage to instantly communicate with any audience, by creating timely, attention-getting displays with a broad range of multimedia capabilities. The "single-box" design of the system and the easy, browser-based, content management system allows you to delegate daily updates to an unlimited number of users. Users without technical expertise will find the interface for content creation familiar and intuitive.

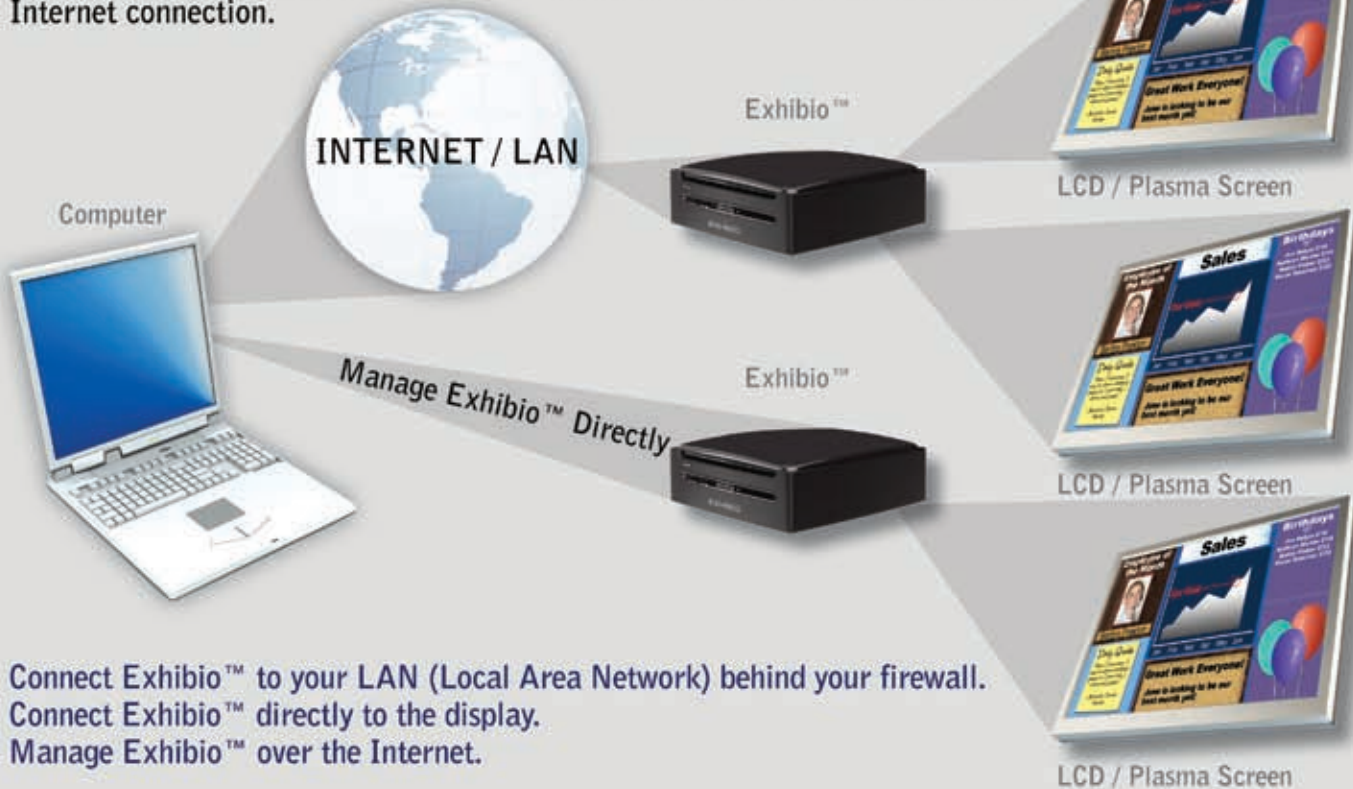

Industries that benefit most:
